

building and using comparable pdf

Green building (also known as green construction or sustainable building) refers to both a structure and the application of processes that are environmentally responsible and resource-efficient throughout a building's life-cycle: from planning to design, construction, operation, maintenance, renovation, and demolition. This requires close cooperation of the contractor, the architects, the ...

Green building - Wikipedia

In economics, valuation using multiples is a process that consists of: . identifying comparable assets (the peer group) and obtaining market values for these assets.; converting these market values into standardized values relative to a key statistic, since the absolute prices cannot be compared.
