better understand how social class, gender, and religion inform personal understandings of race in the United States. Prior research that examines biracials' labeling choices emphasizes the importance of family, peers, and environmental context, but gives little attention to the influence of nonracial social identities.

### **The Role of Gender, Class, and Religion in Biracial**

In this class we will be learning about various world religions. But, as the first chapter in our textbook demonstrates, many and varied things have been labeled as a religion. This means that our first task- or our first problem- is coming up with a description that fits them all.
