This book was previously titled, Be Excellent at Anything. The Way We're Working Isn't Working is one of those rare books with the power to profoundly transform the way we work and live. Demand is exceeding our capacity. The ethic of "more, bigger, faster" exacts a series of silent but pernicious costs at work, undermining our energy, focus, creativity, and passion.

The Way We're Working Isn't Working: The Four Forgotten

Demining or mine clearance is the process of removing land mines from an area, while minesweeping describes the act of detecting mines. There are two distinct types of mine detection and removal: military and humanitarian. Minesweepers use many tools in order to accomplish their task.

Main Text Challenges and Approaches to Imaging Thick Tissues. Biologists have long appreciated that it is easier to see things in thin sections than thick volumes—hence, the pervasive use of microtomes, the indispensable tools that cut thin sections of tissue samples and provide information about cellular constituents within two-dimensional sections of biological tissues.
