With a record number of submissions, this will be an edition of WSDM you do not want to miss.

WSDM 2017 – The 10th ACM International Conference on Web

About the ACM India Council. The ACM India Council is an effort of ACM, the world's largest educational and scientific computing society, aimed at increasing the level and visibility of ACM activities across India. The ACM India Council activities, involving both academia and industry in computing, include:

ACM India

The Association for Computing Machinery (ACM) is an international learned society for computing. It was founded in 1947, and is the world's largest scientific and educational computing society. The ACM is a non-profit professional membership group, with more than 100,000 members as of 2011. Its headquarters are in New York City. The ACM is an umbrella organization for academic and scholarly ...

Record linkage (RL) is the task of finding records in a data set that refer to the same entity across different data sources (e.g., data files, books, websites, and databases). Record linkage is necessary when joining data sets based on entities that may or may not share a common identifier (e.g., database key, URI, National identification number), which may be due to differences in record ...

Computational detection and understanding of empathy is an important factor in advancing human-computer interaction. Yet to date, textbased empathy prediction has the following major limitations: It underestimates the psychological complexity of the phenomenon, adheres to a weak notion of ground truth where empathic states are ascribed by third parties, and lacks a shared corpus.

I am a member of the Data Management, Exploration and Mining group in Microsoft Research Redmond. I work on various aspects database systems, mostly related to data integration and transaction processing. Currently, I'm working on a distributed systems programming framework, called Orleans, which was released as open source in January, 2015 and is widely used inside and outside Microsoft.
