Quick-and-Easy Jobsite Training Designed Specifically for Construction Companies Toolbox Safety Training is easy to read and quick to deliver, allowing supervisors to adequately and effectively incorporate safety into their day-to-day operation without stopping production.

Safety Consultants | Audits & Training for Construction

The concept of using leading indicators of safety performance is introduced with a clear contrast given with lagging indicators. Leading indicators of safety performance are measures of the safety process as it applies to construction work, while lagging indicators pertain to the safety results, namely the extent of the occurrence of worker injuries.
